**PATENT APPLICATION**

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of

Tomoyuki ITOH et al.

Group Art Unit: 2871

Application No.: 10/647,209

Examiner: T. Duong

Filed: August 26, 2003

Docket No.: 116767

For: LIQUID CRYSTAL DISPLAY DEVICE, METHOD FOR MANUFACTURING THE  
SAME, AND ELECTRONIC APPARATUS

**RESPONSE TO RESTRICTION REQUIREMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

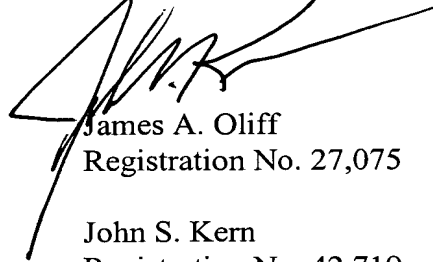

In reply to the December 14, 2004 Restriction Requirement, Applicants provisionally elect Group I, claims 1-6 and 9-12, drawn to transfective liquid crystal display device (LCD), classified in class 349, subclass 113, with traverse.

It is also respectfully submitted that the subject matter of all claims 1-12 is sufficiently related that a thorough search for the subject matter of any one Group of claims would encompass a search for the subject matter of the remaining claims. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). It is respectfully submitted that this policy should apply in the present application in

order to avoid unnecessary delay and expense to Applicants and duplicative examination by the Patent Office.

Thus, withdrawal of the Restriction Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff  
Registration No. 27,075

John S. Kern  
Registration No. 42,719
